

SEASON 1894.

1894

—PRICE LIST OF—

Strawberry Plants and Seed Potatoes,

GROWN AND FOR SALE BY

E. L. ROSER,

Brittain, Summit County, Ohio.

Patrons:—Thanks for past favors. The stringency of the times makes economy the rule. The time and expense of printing testimonials will serve you best if used in labeling and packing with extra care.

Guaranteed:—That all plants are well grown, free from disease, labeled true to name and thoroughly packed in moss. If a mistake should occur responsibility will extend no further than to replace the plants or refund the price paid for them. No varieties will be substituted for those ordered without special permission, but time and trouble will be saved by stating whether you will take something else as your second choice, if the varieties called for are all sold.

Six at dozen, 50 at 100 and 500 at 1,000 rates.

If 500 plants are purchased 10c may be deducted from the price per hundred by express and 10c from the price per dozen by mail.

Varieties marked "p" or "s" are pistillate or staminate respectively. Every third or fourth row should be planted to a staminate variety to fertilize the pistillate. Early staminate should be planted with early pistillate, late with late, etc.

Varieties printed in CAPITALS are reliable for general cultivation. Those printed in

FULL FACED LETTERS

are promising, so far as tested. Plants by mail prepaid; by express not prepaid.
